

STATE OF WASHINGTON  
DEPARTMENT OF ECOLOGY  
SUPERSEDING PERMIT

THIS PERMIT SUPERSEDES GROUND WATER PERMIT NO. G3-29249(B) ISSUED FEBRUARY 16, 2012  
TO APPROPRIATE PUBLIC WATERS OF THE STATE OF WASHINGTON

- ☐ Surface Water (Issued in accordance with the provisions of Chapter 117, Laws of Washington for 1917, and amendments thereto, and the rules and regulations of the Department of Ecology.)
- ☒ Ground Water (Issued in accordance with the provisions of Chapter 263, Laws of Washington for 1945, and amendments thereto, and the rules and regulations of the Department of Ecology.)

PRIORITY DATE	APPLICATION NUMBER	PERMIT NUMBER	CERTIFICATE NUMBER
August 4, 1992	G3-29249	G3-29249(B)	

NAME	City of Airway Heights		
ADDRESS (STREET)	(CITY)	(STATE)	(ZIP CODE)
1208 South Lundstrom	Airway Heights	Washington	99001-9000

The applicant is hereby granted a permit to appropriate the following public waters of the State of Washington, subject to existing rights and to the limitations and provisions set herein.

PUBLIC WATERS TO BE APPROPRIATED

Source  
Well 9 (Parkwest)

BEGIN PROJECT BY THIS DATE:

Started

COMPLETE PROJECT BY THIS DATE:

July 1, 2013

WATER PUT TO FULL USE BY THIS DATE:

July 1, 2022

---

---

**PROVISIONS**

---

All wells constructed in the state shall meet the "Minimum Standards for the Construction and Maintenance of Wells" (WAC 173-160) and "Water Well Construction" (RCW 18.104). In general, wells shall be located at least 100 feet from sources of contamination and at least 1,000 feet from the boundary of a solid waste landfill. Any well which is unusable, abandoned, or is an environmental, safety, or public health hazard shall be decommissioned.

All wells shall be tagged with a Department of Ecology unique well identification number. If you have an existing well and it does not have a tag, please contact the well-drilling coordinator at the regional Department of Ecology office issuing this decision. This tag shall remain attached to the well. If you are required to submit water measuring reports, reference this tag number.

A completed well report of the well(s) shall be submitted by the driller to the Department of Ecology within 30 days of completing this well. All pump test data for this well shall be submitted to the Department as it is obtained.

Required installation and maintenance of an access port as described in WAC 173-160- 291(3).

Original Well No. 2, located in Tract 59, Plat of Hazelwood Irrigated Farms No. 2, within the SE¼NW¼ of Section 25, Township 25 N., Range 41 E.W.M., shall be properly decommissioned in accordance with WAC 173-160.

Prior to any new construction or alterations of a public water supply system, the State Board of Health rules require public water supply owners to obtain written approval from the Office of Drinking Water of the Washington State Department of Health. Please contact the Office of Drinking Water prior to beginning (or modifying) your project at DOH/Division of Environmental Health, 16201 E. Indiana Avenue, Suite 1500, Spokane Valley, WA 99216, (509) 329-2100.

An approved measuring device must be installed and maintained for each of the sources identified by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173, which describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Well water use data shall be recorded weekly and maintained by the city for a minimum of three years. The weekly maximum rate of withdrawal, the annual total volume, and the hourly water level readings shall be submitted to Ecology by January 31<sup>st</sup> of each calendar year.

All industrial supply developed under this permit shall be recorded separately. Industrial use data shall be recorded monthly and maintained by the city for a minimum of three years. The monthly maximum rate of withdrawal and the annual total volume shall be submitted to ecology by January 31<sup>st</sup> of each calendar year.

Recorded water use data shall be submitted via the Internet. To set up an Internet reporting account, contact the Regional Office. If you do not have Internet access, you can still submit hard copies by contacting the Regional Office for forms to submit your water use data.

\*Provisions continued on Page 3

This superseding permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Signed this 19<sup>th</sup> day of July, 2012, at Spokane, Washington,

Department of Ecology

SUPERSEDING PERMIT

The water source and/or water transmission facilities are not wholly located upon land owned by the applicant. Issuance of a water right change authorization by this department does not convey a right of access to, or other right to use, land which the applicant does not legally possess. Obtaining such a right is a private matter between applicant and owner of that land.

Use of water under this authorization will be contingent upon the water right holder's maintenance of efficient water delivery systems and use of up-to-date water conservation practices consistent with established regulation requirements and facility capabilities.

The water right holder must file the notice of Proof of Appropriation of water (under which the certificate of water right is issued) when the permanent distribution system has been constructed and the quantity of water required by the project has been put to full beneficial use. The certificate will reflect the extent of the project perfected within the limitations of the water right. Elements of a proof inspection may include, as appropriate, the source(s), system instantaneous capacity, beneficial use(s), annual quantity, place of use, and satisfaction of provisions.

Department of Ecology personnel, upon presentation of proper credentials, will have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

The total withdrawal under Ground Water Certificate Nos. 6321-A, G3-23465C, G3-26657C, G3-27427C, G3-29249(A) and G3-29249(B), shall not exceed 2315 gallons per minute and 2328 acre-feet per year.

If at any time proposed well Nos. 11-17 impair an existing water right, which includes exempt wells, water use from that source well will be reduced or mitigated until that impairment is ended.

This change authorization shall be subject to all requirements and restrictions of the Agreed Order Docket No. 8703, dated September 8, 2011.

Effective July 1, 2013, the City shall cease all pumping from the Park West Well (Now referred to as Well 9), except as detailed in the Agreed Order Docket No. 8703, dated September 8, 2011.
